To Board of Directors, Greens/Golf Committee, Golf Course Superintendents, Golf Professionals and General Managers,

I had the distinct opportunity, honor, and pleasure to direct the process of our multi-million-dollar golf course renovation at Money Hill Golf and Country Club.

The first step of the process began identifying which golf course architect would be in alignment with the ownership and member's vision. What began as an arduous selection undertaking, became clearly apparent who would be the correct fit for our project. Mike Gogel overwhelmingly surpassed every other candidate in every aspect of his approach to design, creativity, and strategic thought process.

Once hired, Mike did not cease to impress us with his diverse skill set throughout the project. Mike worked closely with our Golf Course Superintendent, our Head Golf Professional, and me. Mike's eye towards course design would provide a course that not only challenged golfers of all levels while attentive to the demands of daily operating maintenance. Mike directed all aspects of recruiting, interviewing, and hiring a golf course contractor. Any General Manager who is responsible for project cost and results, will tell you this is mission critical. Additionally, Mike did multiple hole by hole presentations to the ownership, greens committee and at town hall meetings for our membership ending in thunderous applause.

Because of Mike's passionate approach to perfection, he was on site and on the equipment to ensure all greens were shaped exactly to his level of expectations and design.

We have been open for a little over a month and not surprisingly I receive compliments every day about the design of our course.

In closing and to the confidence Mike has bestowed in us, we have already begun discussions with Mike to design our 2nd 18 hole course within the next 3 years.

Sincerely,

Greg Klemp

General Manager/Chief Operating Officer
